

## **Centromere Protein A (CENP-A)**

### **Antigen Specification**

#### Product Number: 16900

#### **Description:**

Human centromere protein A (CENP-A).

Recombinant antigen for in vitro research and manufacturing use only.

#### Immunological function:

Binds IgG-type human auto-antibodies.

#### Origin:

Recombinant. Expressed by recombinant baculovirus (*Autographa californica* multiple nuclear polyhedrosis virus; AcMNPV) infection of *Spodoptera frugiperda* Sf9 insect cells.

#### **Expression construct:**

Full-length cDNA coding for the human centromere protein A fused to a hexahistidine purification tag.

#### **Biochemical tests:**

SDS-PAGE (purity > 90%); Western blot with i: anti-CENP-A autoantibodypositive sample; ii: monoclonal anti-His-tag antibody. Calculated molecular weight: 17 kDa

Calculated isoelectric point: pH 11.7

#### Immunological tests/Functionality:

Standard ELISA test (checkerboard analysis of positive/negative samples); line assay and immunodot analyses with positive/negative samples.

# Recommended buffer/storage and handling conditions:

Recommendations for storage buffer: neutral to slightly alkaline pH and 6 M urea.

Storage conditions: -70°C or below. Repeated freeze/thaw cycles should be avoided.

#### **Coating concentration:**

0.15-0.4 µg/mL (depending on the type of ELISA plate and coating buffer). Suitable for labeling of functional groups.
